Projects

Audio Player [↗](#)

I created an audio player website using HTML, CSS, and JavaScript. It features a sleek and intuitive user interface designed with CSS to enhance the visual appeal. JavaScript was utilized to handle the audio playback functionality, allowing users to easily control playback, adjust volume, and navigate through tracks. The website provides a seamless and enjoyable listening experience for users, showcasing my proficiency in web development and design.

Declaration

I here by declare that all the information furnished above is true and correct to the best of my knowledge.
